Practical No.14

Q.1] Prepare a test report for any website of your choice (e.g., online shopping, college portal, or banking site).

Test Summary Report

Project Name: Bank Website
Tested By: Mr. Aditya Mane
Test Date: 28-01-2026
Test Environment: Microsoft Windows 10 Pro, Google Chrome Browser
Test Summary Report ID: TSR-BANKING-WEBSITE-02

Summary

Testing was performed on the core functionalities of the banking portal, including customer login, account overview, fund transfer, transaction history, bill payments, and logout, to verify correct and smooth system operation.

Variances

Minor delays were observed due to slow server response. A few low-priority UI issues were identified, and testing on older browser versions was deferred.

Comprehensiveness

All high-priority and medium-priority features were tested thoroughly. Low-priority features were tested partially based on their importance and impact.

Summary of Results

Most test cases passed successfully. A few minor issues, such as slow page loading and small UI inconsistencies, were identified. These issues do not affect the core functionality of the system.

Evaluation

The banking portal is stable, reliable, and suitable for use by both customers and staff.

Activities Summary

Testing activities included test planning, test case design, test execution, defect reporting, retesting, and regression testing.

Approvals

This report has been reviewed and approved by the Project Head, **Mr. Aman Gupta**.
The system is **recommended for release**.

Q.2] Create a table containing Test case ID, Test case Objective, Input data, Expected result, Actual result, and Status for at least five test cases.

Test Case ID	Test Case Objective	Input Data / Test Steps	Expected Result	Actual Result	Status
TC_BW_01	Verify account balance display	1. Login as testuser@bank.com 2. Select Account No: 1234567890	Current account balance (e.g., ₹25,000) should be displayed correctly	Balance displayed correctly	Pass
TC_BW_02	Verify invalid login attempt handling	1. Enter Username: wrong@bank.com 2. Enter Password: WrongPass	Error message **"Invalid credentials"** should be displayed Maximum 3 attempts warning should appear without account lock	Error message displayed, but lockout warning not shown correctly	Fail
TC_BW_03	Verify session timeout on inactivity	Stay idle on dashboard for 10 minutes	User should be auto-redirected to login page Session should be cleared "Session expired" message should be shown	Redirected correctly after 10.5 minutes	Pass
TC_BW_04	Verify fixed deposit creation	Enter Amount: ₹10,000 Duration: 12 months Interest Rate: 6.5%	FD should be created Confirmation message with maturity amount (₹10,650) Balance should be deducted	FD created and maturity amount shown correctly	Pass
TC_BW_05	Verify fund transfer functionality	Transfer ₹5,000 from Savings Account to Account No: 789780	Amount should be transferred instantly and balance updated	Transfer completed with 5-second delay	Pass
